

Practice Forum

Responding to High Risk Domestic Violence

DVAC Practice Forums are held quarterly and aim to develop knowledge, experience and expertise in responding to domestic, family and sexual violence in our community. There is a focus in these practice forums in sharing knowledge, improving service delivery and providing accessible professional development opportunities for those who attend.

This session focuses on responding to high-risk domestic and family violence, that is violence that poses a risk of death or serious injury. This practice forum provides foundational training on responding to known indicators of lethality and information sharing pathways using Part 5a of the Domestic & Family Violence Protection Act 2012 (QLD).
